

Physicians at North Shore Foot & Ankle honored with faculty positions within the Department of Family and Community Medicine at Northwestern University Feinberg School of Medicine.

The doctors at North Shore Foot & Ankle will be hosting a one-month didactic rotation for the eight PGY2 Family Medicine Residents from the McGaw Northwestern Family Medicine Residency at Lake Forest.

The rotation will expose the residents to the full extent of foot and ankle pathology. Upon completion, the residents will be prepared to make appropriate treatment decisions, including when to refer to a podiatric physician. The symbiotic relationship between family medicine and podiatry at Northwestern will help patients receive the highest quality foot and ankle care.

Front Row: Dr.s Rebecca Leapman, Gary Friend, Kathryn Grace, Howard Stone

Back Row: Dr.s Jeffrey Mitchell, James Gosse, Paul Chamas
