

Advanced MLS Laser Therapy

Don't let foot and ankle pain stop you from living your life! North Shore Foot & Ankle offers the most advanced MLS Laser Therapy in the office, and it is an effective, proven, pain-free treatment for foot and ankle conditions such as plantar fasciitis (heel pain), foot and ankle pain, knee pain, arthritis, foot and ankle sprains, gout, neuropathy, and more! We will even customize a treatment program for you.

The Laser Produces a Healing Response From Your Body

Class IV lasers work by flooding the tissues with photons, energizing inflamed and damaged cells. The laser produces a healing response in the body, which reduces inflammation, decreases or eliminates pain, and speeds your recovery.

MLS Laser Painlessly Treats a Variety of Ailments:

- Heel Pain
- Bunion Pain
- Sports Injuries
- Neuromas
- Toe Nail Fungus
- Plantar Fasciitis
- Tendon and Ligament Injuries
- Knee Pain
- Tendonitis
- Foot and Ankle Arthritis
- Neuropathy Pain
- Muscle Sprains and Strains
- Chronic Non-Healing Wounds
- Post-Operative Pain and More

Benefits of MLS Laser Therapy:

- Analgesic Effect
- Anti-Inflammatory Effect
- Accelerates Tissue Repair of Strains and Sprains
- Reduces Scarring
- Improves Nerve Function
- Improves Blood Circulation
- Quicker Wound Healing
